Economic Modelling

Index to Volume 12
January, April, July, October 1995

Articles – titles

A forecasting model of the Sri Lankan economy. *Wimal Rankaduwa, U L Gouranga Rao and Tomson Ogwang*. 12.4, 343–375

A long-run simulation model for analysing social security retirement policies. *David H Richardson*. 12.4, 415–424

A macroeconomic rationing model estimated by cointegration techniques and generalized method of moments. *Eskil Heinesen*. 12.2, 97–110

A model of the world oil market for Project LINK. Integrating economics, geology and politics. *Robert K Kaufmann*. 12.2, 165–178

A varying-coefficients model of export expansion, factor accumulation, and economic growth: Evidence from cross-country, time series data. *S Amirkhalkhali and A A Dar*. 12.4, 435–441

An econometric model of the oil importing developing countries. *Michael Beenstock*. 12.1, 3–14

CGE model of pollution abatement processes for assessing the economic effects of environmental policy. *Deborah Vaughn Nestor and Carl A Pasurka Jr*. 12.1, 53–59

Exchange rates and the European business cycle. An application of a quasi-empirical two-country model. *Pieter J F G Meulendijks and Dick B J Schouten*. 12.1, 35–52

Foreign exchange constraints and developing countries. *Robert Lensink*. 12.2, 179–191

HERMIN A macroeconometric modelling framework for the EU periphery. *John Bradley, Leonor Modesto and Simón Sosvilla-Rivero*. 12.3, 221–247

HERMIN Ireland. *John Bradley, Karl Whelan and Jonathan Wright*. 12.3, 249–274

HERMIN Portugal. *Leonor Modesto and Pedro D Neves*. 12.3, 275–294

HERMIN Spain. *José-Antonio Herce and Simón Sosvilla-Rivero*. 12.3, 295–311

Inflation and stabilization in Argentina. *Baotai Wang, Erwin Klein and U L Gouranga Rao*. 12.4, 391–413

Is public expenditure really productive? New evidence for the USA and The Netherlands. *Jan Egbert Sturm and Jakob de Haan*. 12.1, 60–72

Leisure time, savings and trade patterns. A two-country growth model. *Wei-Bin Zhang*. 12.4, 425–434

Macroeconomic shocks and the endogenous response of the stock market and real interest rates in a neoclassical general equilibrium model. *Kong Weng Ho and Hian Teck Hoon*. 12.1, 28–34

Model consistent learning and regime switching in the London Business School model. *S G Hall and A Garratt*. 12.2, 87–95

Modeling fully employed economies. *H O Stekler and R W Beckstead*. 12.2, 205–210

Modelling in the EU periphery. The HERMIN project. *John Bradley, José-Antonio Herce and Leonor Modesto*. 12.3, 219–220

On model reduction and multiperiod ahead prediction in vector autoregressive models. *Pieter W Otter*. 12.4, 339–341

Similarity and diversity in the EU periphery. A HERMIN-based investigation. *John Bradley, Leonor Modesto and Simón Sosvilla-Rivero*. 12.3, 313–322

Taxes and subsidies in a multisectoral econometric model. *Thomas Siebe*. 12.2, 193–204

The IBS–CCSO quarterly model of the Netherlands. Specification, simulation and analysis. *Jan Jacobs and Elmer Sterken*. 12.2, 111–163

The macroeconomic effects of the CSF 1994–99 in the EU periphery. An analysis based on the HERMIN model. *John Bradley, José-Antonio Herce and Leonor Modesto*. 12.3, 323–333

Trans-Tasman CGE modelling. Some illustrative results from the Joani model. *G Nana, V B Hall and B P Philpott*. 12.4, 377–389

Wage dispersion and mobility. *Gerard J van den Berg*. 12.1, 15–27

Why do sanctions need time to work? Adjustment, learning and anticipation. *Peter A G van Bergeijk and Charles van Marrewijk*. 12.2, 75–86

Articles – authors

Amirkhalkhali, S and Dar, A A. A varying-coefficients model of export expansion, factor accumulation, and economic growth: Evidence from cross-country, time series data. 12.4, 435–441

Beckstead, R W see Stekler, H O

Beenstock, Michael. An econometric model of the oil importing developing countries. 12.1, 3–14

Bradley, John, Herce, José-Antonio and Modesto, Leonor. Modelling in the EU periphery. The HERMIN project. 12.3, 219–220

Bradley, John, Herce, José-Antonio and Modesto, Leonor. The macroeconomic effects of the CSF 1994–99 in the EU periphery. An anlysis based on the HERMIN model. 12.3, 323–333

Bradley, John, Modesto, Leonor and Sosvilla-Rivero, Simón. HERMIN A macroeconometric modelling framework for the EU periphery. 12.3, 221–247

Bradley, John, Modesto, Leonor and Sosvilla-Rivero, Simón. Similarity and diversity in the EU periphery. A HERMIN-based investigation. 12.3, 313–322

Bradley, John, Whelan, Karl and Wright, Jonathan. HERMIN Ireland. 12.3, 249–274

Dar, A A see Amirkhalkhali, S

de Haan, Jakob see Sturm, Jan Egbert

Garratt, A see Hall, S G

Gouranga Rao, U L see Wang, Baotai

Gouranga, Ul see Rankaduwa, Wimal

Hall, S G and Garratt, A. Model consistent learning and regime switching in the London Business School model. 12.2, 87–95

Hall, V B see Nana, G
